SHORT GUIDE EDUROAM FOR CHROME OS

RUB

1. If you have already configured eduroam, remove the configuration first. To do this, go to Settings \rightarrow Network. Select eduroam and press Remove.

2. Visit the eduroam CAT website

https://cat.eduroam.org/?idp=5217

3. Download the configuration profile for Chrome OS:

eduroam-chromeos-Ruhr-Universitat_Bochum-eduroam.onc

4. After downloading the file, open the Chrome Browser and type the following:

chrome://network/#general

Choose File No file chos

Use the *Choose File* button to import the ONC-file. The import will proceed without any feedback.

5. After the import, go back to the network settings and select eduroam.

6. Check if the following settings have been applied:

EAP-Methode: EAP-TTLS EAP-Phase-2-Authentification: PAP CA-server certificate: Standard Anonymous identity: eduroam@ruhr-uni-bochum.de

Use for *identity* and *password* your RUBLoginID and your password.
